Tobias Stoll (UX/UI Designer)

Berlin, Germany · TobiasStoll@pm.me · LinkedIn · Portfolio concept2design.de

UX/UI designer with 6 years in travel, enterprise and gaming products. I design complex flows for Web, iOS and Android, build design systems that connect to code, and test prototypes with users before engineering starts. My work has raised conversion, grown sign-ups and made handoff to engineering faster.

Experience

Design Systems Consultant (Freelance), Safety-critical software (NDA) August 2026 – Present · Remote

- Consolidated a grown design system into a lean set of core components and built a tiered token architecture with WCAG AA as the target, so engineers start from ready tokens and code.

UX/UI Designer, Invia Flights August 2024 – July 2026 · Leipzig & Remote

- Redesigned the fluege.de booking flow for Web, iOS and Android across several markets, and raised conversion and add-on adoption through user research and A/B testing.

UX Consultant (Freelance), Beta Systems October 2023 – June 2024 · Berlin

- Rebuilt the UI foundation and component library for several enterprise platforms and moved the team from Adobe XD to Figma, which made handoff to engineering faster.

Product Designer, Freaks 4U Gaming June 2022 – September 2023 · Berlin

- Led the platform-wide redesign of Prime League and 99Damage and launched several web products from 0 to 1, which grew league registrations and ad revenue.

UX & Interaction Designer, University of Potsdam October 2021 – May 2022 · Potsdam

- Designed user flows and HTML/CSS prototypes for Germany's National Education Platform. The concept was approved after usability validation.

UX Researcher (Freelance), Sides August 2021 – October 2021 · Berlin

- Ran user interviews and usability tests and turned them into personas, journeys and hypotheses for a POS redesign.

Skills

- **UX:** user research, usability testing, A/B testing, information architecture, user flows, prototyping
- **UI & systems:** design tokens, component libraries, Code Connect, Storybook, WCAG, Apple HIG, Material Design
- **Tools:** Figma, Figma Make, Claude, HTML/CSS, Jira, Google Analytics, Microsoft Clarity, Amplitude
- **Languages:** German (native), English (C1)

Education

- Google AI Professional Certificate (2026) · IBM Generative AI for UI/UX Design (2026) · UX Design Institute, UI Designer (2025) · Ironhack, UX/UI Designer (2021) · B.Sc. Nutritional Science, Universität Gießen (2019)
